FlyLady Kit 0.1

This is a customizable kit based on the works of Marla Cilley AKA FlyLady. I basically wanted my control journal to fit with my main planner size and look well put together. Please visit www.flylady.com, read Marla's books and join the Yahoo group to really benefit and understand how to FLY.

I have also created Quick Reference cards for FlyLady's main tools that I value. If you are a FlyBaby, then start with the Quick Reference cards and FlyBaby pages. Thousands if not millions of people know and love FlyLady and I hope this can share the love :)

Shine Your Sink

Steps to Get You Sink Shining

- for the first time you shine your sink.

BE SURE AND RINSE WELL BETWEEN EACH STEP OF THE WAY!

1. Take all the dishes out of the sink.
2. Run some very hot water into the sink. Fill one side at a time to the rim. Pour a cup of household bleach into the hot water. Let it sit for 1 hour. Now, pull the plug with a pair of tongs. If you don’t have tongs, then scoop some of the water out of the sink into the other sink and use your hand to pull the plug (wear gloves and don’t get the bleach-water on your clothes).
3. Rinse your sink well.
4. Use some cleanser (Comet, Ajax, or Baking Soda) and scrub your sink. Ensure you rinse ALL of the cleanser from the sink.
5. Take a sharp edge and clean around the rim of the sink, just like you would clean dirt out from under your fingernails.
6. Clean around the faucets too. You may need an old toothbrush or dental floss.
7. Now, get out your window cleaner. I use Windex, and give it a good shine. If you still don’t like the way it looks, then you could try a light coat of lemon oil or olive oil or even some car wax. Just know that the sink is clean and doesn’t have to be perfect.

EVERYDAY

AFTER EACH MEAL rinse dishes and put them straight into the dishwasher.
Every time you use the in your sink, take your clean dishtowel and dry it out. Before you know it, you will be doing this everytime you leave your kitchen. The rest of the family will too. No more water spots. You will have a clean and shiny sink.

To insure that your family remembers this, put a note in the sink. It will get their attention and remind them where to put the dishes. Be patient! They have never been taught either. It is going to take some practice.
